Please fully document (describe) any additional discussions, questions or concerns that were raised

Hlman Mmeshangombe: "We support BCP because they have provided us with school books, cement, community projects etc under the REDD+ project. Therefore, we look forward to working together this 2014 and see how we are going to improve our livelihoods."

Sharon Chiayakamba: "We failed in making our school orchard a success because there was no water around the school. Now that we have water available, we would really love to have a school orchard, as it would also demonstrate the importance of forest protection".

Hlman Mwachombela: "The 2014 Village Chicken Project (VCP) should be different from the 2013 one. We know how beneficial such a project is but due to dependence on each other, the VCP has not been successful in other villages. It can work if people do VCP individually."
